EXAMINER COMMENT

1. Applicants amendments to claims 1, 15 and 19 have overcome the §103(a) rejection of Nikolich and Colombo. Applicant's arguments with respect to the claims are persuasive in view of the amendments to the independent claims.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 15, line 9, after "outlet" inserted --,--.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The combination combustion tool and fuel cell used with the combustion tool comprised of a housing having a fuel metering chamber, a fuel metering valve, which function with a valve stem to dispense a pre measured amount of fuel, the valve stem having a variable exterior diameter, which forms a seal when the stem is in the open position and engaging a housing seal and a biasing element which urges the stem to a

closed position and is located between the fuel metering chamber and an end of the fuel metering valve is not suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
